Washington society will be especially stenested in some goesip that comes recently by cubic from London to the effect that a cided move is being made to freeze out se American colony in London at the court unctions and indeed at all of the leading ntertainments at which the titled Britishers ore the hosts. One of the London paper ently contained a paragraph to the efof that "there was an entire absence of surveys rather and Americans." The sigmilicance of all this was that the absence of Americans contributed to the greater scial success of the occasion.
